Initial Build Notes
Creative Director: Sharyliz & Creative Designer: Cloud

The addition of the Intro is great! And something I never thought about before!

I think the font choice it good. Possible apply more of a vignette on the picture for the top portion that way it flow better with the nav bar, and then make the nav bar options a bit brighter/whiter.

I also think it would be cool if when you hovered over one of the nav bar options it was like fire colors so like ombre red yellow orange white to kind of match the poster (for a future iteration of course), or if the nav bar itself was an ombre fire color.

The "previous" and "next" design on the seasons page is also nice and I like that it doesn't put too much information on the page. I think it also makes it easier to find the summary of the episode you're looking for!
