

Creative Director: Sharyliz Reid
Designer: Cloud Guo

Meeting Notes

Cloud is already pretty comfortable with the ideas I brought forth for my design because he also chose an anime site to do, so we had a lot of the same ideas/layout preferences.

Some things we clarified:

- Summary of each season instead of a summary of episodes since there are far too many episodes in the show at this point, however only 4 seasons.
- We decided on something like such : for the season/episode snapshots, that way there can be an organized flow of both information while also highling the animation style and consistent across the episodes/seasons.
- Colors: dark yet vibrant like the show, lots of reds, blacks, greens. Warnings of gorey content for the readers/viewers.
